WEATHER OR NOT

May 5 marks the midpoint offspring. It's no wonder that May is known as the month of mild days. The hottest place to be in the U.S. in May is Miami Florida where it averages 79 degrees. The coolest place to live in is Anchorage, Alaska, where the temperature hovers around 46 degrees.

QUOTE OF THE MONTH

"Don't knock the weather: nine-tenths of the people couldn't start a conversation if it didn't change once in a while."

- Kin Hubbard

IN THE GOOD OLD DAYS

In 1943 (75 years ago), the average annual income was \$2,043. The average cost of a new house was \$3,600. A loaf of bread was 9¢, and a gallon of milk was 62¢. Stamps were 3¢ each. A car cost \$1,100, and gas was 21¢ per gallon. You could go see a movie for 35¢. According to the Consumer Price Index Calculator, \$1 in 1943 is equivalent to \$14.15 today.

MARY'S CORNER

"the world's favorite season is the spring. All things seem possible in May"

~ Edwin Way Teale

The birthstone for May is the Emerald. In the middle ages it was believed this stone held the power to foretell the future. Columbia is known to mine the largest and highest quality of emerald, and is the home of the most famous emerald mine. The name of this mine is Muzo, named after the Muzo Indians.

The flower for May is Lilly of the Valley, it got its name from the early Christian monks. It's a quote from the biblical song of Solomon: "I am the rose of Sharon and the Lilly of the valley." These delicate, white, bell shaped flowers are very fragrant. They stand for purity and innocence, they also bring luck in love. For this reason, you will find them in bridal bouquets.

As the weather gets warmer are you dreaming of a white Christmas? Bing Crosby had no idea that on May 29, 1942 his recording of Irving Berlin's White Christmas would become the world's most popular song. This song went on to win an academy award for best original song, and hit number 1 on the pop chart in October 1942, two months before Christmas.

May 6-12 is pet week. A week to honor our non-human companions. I came across a few stories I would like to share with you.

- A little girl three years old has a lung disease that makes it difficult for her to breathe. She has a pet golden doodle named Mister Gibbs, who carries her heavy oxygen tank. Her parents call Mr. Gibbs her "4 legged life line."
- When a wild life park became over crowded with animals, Casey Anderson stepped in to save a baby grizzly bear. Little did Casey know that the bear Brutus would grow to be one of his best friends and even be best man at his wedding. If you don't find Brutus outside, he could be eating at their dining room table.

May the 4th be with you. Star Wars' day is May 4th. This franchise was released on May 25, 1977, and it blew audiences away. Creator George Lucas, had mined both high and low-brow sources for his space opera, paying homage to the filmmakers he had studied during his film school years. What grew out of that first film is a media empire as far-reaching as the evil Empire itself.

Mother's Day is May 13, in the United States the most typical gift given to Mom is a Mother's Day card and flowers. It may come as no surprise that the vast majority of Mother's Day cards are not bought by men, but by women.

In closing it is mind boggling to me that we are almost halfway through the year.
